Whether long term or short, your rental can be offered with a variety of inclusive service level and maintenance options.

Dontyne Systems/ Dontyne Gears

www.dontynesystems.com

Dontyne Systems supplies software and consultancy services aimed at efficient design and manufacture of gear systems in the automotive sector. Our Gear Production Suite (GPS) software can optimise design and reduce costs. Dontyne Gears carries out R&D for customers validating improved designs from GPS and reduced times for production.

DS Smith Plastic & Foam

www.dssmith.com/foam-products

Foam Products designs and manufactures returnable packaging and component solutions for many of the world's biggest industries. Our products are tailored specifically to the customers' requirements, delivering solutions to prioritise the supply cycle and sustainability goals to ensure the perfect solution.

DTR VMS

www.dtrvms.com

DTR VMS is a full service supplier, designing and manufacturing advanced technical products to address noise, vibration and harshness (NVH) and improve vehicle comfort. As part of DTR Corporation, we are able to share and leverage our technology and manufacturing capabilities globally. This enables us to support our customers locally and manufacture globally.

Durham University

www.dur.ac.uk/bis

Durham is a residential collegiate university with long traditions and modern values. Durham University brings together relevant expertise from across the departments to support the automotive industry worldwide. Research themes include aerodynamics, electric vehicles including charging integration, stress, vibration, acoustic analysis, low carbon vehicles, real-time sensing for future vehicle autonomy, as well as operations and supply chain management, and statistical mathematics to enable better asset management.

Eastern Seals

www.easternseals.co.uk

Our group is built on two of the UK's leading suppliers in automotive sealing technology. We supply a vast range of sealing solutions for cars, motorcycles, buses, trucks, trains and other heavy duty vehicles. Automotive parts can be supplied with Level 3 PPAP documentation, along with CPK and PPK controls.

EDM Zone

www.edmzone.co.uk

EDM Zone is passionate about being part of your manufacturing and engineering projects and understands the challenges you face in sourcing high precision parts. With over 30 years of experience, EDM Zone established itself as an Electrical Discharge Machining (EDM) specialist in 2007. Since then EDM Zone has continued to provide high precision engineering solutions to business like yours along with great service and the adaptability and ingenuity to deliver no matter what the challenge.

EK Automation

www.ek-automation.com

E&K Automation GmbH, founded by Dieter Eilers and Juergen Kirf in 1980, joined forces with Indumat GmbH at the start of this millennium. The group, now known as EK Automation, has more than fifty years of experience in the design and implementation of Automated Guided Vehicle systems. Automated Guided Vehicles (AGV) and state-of-the-arts Transport Robots from EK Automation help you improve your intralogistics in a targeted manner; make many processes in your organisation more efficient and increase productivity.

Elring Klinger (GB) Limited

www.elringklinger.com

Design and manufacture of cost effective Heat and Acoustic shielding solutions, speciality hard and soft gasketing design and production in Teesside based bespoke manufacturing facility. UK manufacturing division of global group with access to full service provision for all shielding and gasket requirements.

E-Max Systems

www.emax-systems.co.uk

ERP Systems, MRP Systems & CRM Systems for: engineering, manufacturing and distribution – tailored to your needs. Our passion is to help our customers achieve a competitive advantage by harnessing the power of our ERP system, MRP system and CRM system software solutions.

Emirates

www.emirates.com

Founded in 1985, Emirates connects people and places around the globe, inspiring travel and facilitating trade across 155 destinations in 83 countries. With a modern and efficient fleet of over 250 aircraft, we offer a daily service to Dubai and beyond from Newcastle Airport operated by a beautiful Boeing 777-300 series aircraft.

ERIK JUHLER

For FLASH is a group of men and women sharing the same values and working together to find solutions to specific logistic needs, in Europe and internationally.

Flowstore Systems

www.flowstore.co.uk

Flowstore design manufacture and supply modular framework systems designed for Lean manufacturing and visual management solutions. These include line side racking, assembly cells, work stations, floor markings & safety signage and container handling solutions.

FM Coatings

www.fmcoatings.co.uk

At FM Coatings we pride ourselves on the highest levels of paint application and finish, with world class yields and best in class finish. From simple mono-coats to highly technical finishes, FM Coatings have the ability to meet the highest demands from a customer.

Ford Component Manufacturing

www.ford-engineering.com

Ford Components are an award-winning specialist in engineered components for the automotive, defence, Rail, Off-road, Marine and other related high technology industries. Our businesses provide a first-class, made-to-print turnkey component solution to a broad range of customers.

Formula Plastics

www.formula-plastics.co.uk

Formula Plastics manufactures injection moulded components and assemblies for the automotive industry. With over 20 years' experience and already supplying many tier 1 companies, we are expanding our production capacity. Current range includes moulding from 50T to 650T. With ISO14001 & EcoVadis Silver CRM rating we demonstrate our commitment to excellent standards.

Frank Dudley

www.frankdudley.com

FDL are an ISO 140001 & TS 16949 accredited component manufacturer specialising in Metal Pressings, Assemblies & Interior & Exterior Brightware. We have involvement in projects from the R&D stage, through initial samples, prototypes, full production and spares. We believe our Brightware cell highlights FDL's commitment to right first-time manufacturing. Onsite we have a

range of 25-630T progression and single action presses producing Seating, BIW, chassis & suspension components from Stainless, Alloys & mild steel.

FS Design

www.fsdesign.co.uk

FS Design is a product design and development consultancy that specialises in creating products for automotive industry suppliers and other sectors. The Sunderland-based business was established in 2002 with an initial focus on working with Tier 1 and Tier 2 automotive suppliers to design the components they require.

GAMBICA Association

www.gambica.org.uk

GAMBICA is the Trade Association for Instrumentation, Control, Automation and Laboratory Technology in the UK. The Association's primary objectives are to further the successful development of the industry and to promote the competitiveness and profitability of member companies.

Galaxy Safety Solutions

www.galaxysafety.co.uk

Galaxy Safety is as demanding as the consumer and always places manufacturing emphasis on the users' priorities and requirements. Our company places an emphasis on the value added benefits, the value added benefits of purchasing Galaxy gloves include: control of quality, design technology, customer service and support.

GB Belting

www.gbbelting.co.uk

We supply to a diverse range of markets who call upon our experience, problem solving 'know-how' and comprehensive materials stockholding to ensure production lines keep rolling, deliver extra production efficiencies or suffer minimal downtime - planned or unplanned.

Gestamp Tallent

www.gestamp.com

Gestamp is an international group dedicated to the design, development and manufacture of metal automotive components. The Group specialises in developing innovatively designed products to achieve increasingly safer and lighter vehicles, thereby reducing energy consumption and environmental impact.

Ginho Group

www.ginho-group.com

Specialist producer of stainless steel, alloy steel and carbon steel investment castings. The UK is responsible for the entire European market with Germany division being responsible for key market activities in Germany for the turbo charger market.

Gospelware

www.gospelware.co.uk

Gospelware are innovators and problem solvers working at the forefront of app technology, digitalising and advancing business processes. Working with Manufacturing and Engineering businesses, including Nissan, developing user-centred apps which improve production processes.
